Re: Ex Parte Access Charge Reform CC Docket 96-262

Dear Ms Salas:

On March 23, 1998 Joel Lubin, and Paul Malandrakis of AT&T and I met with R. Lerner, J. Scott, and C. Barnekov, of the Competitive Pricing Division of the Common Carrier Bureau. AT&T discussed the impacts of Universal Service and Access Reform on the interexchange industry beginning July 1, 1998. AT&T quantified the impacts of several scenarios as detailed in the attached charts.

Further, AT&T advocated that the Commission, on July 1, 1998, set the LEC Interstate Price Cap Productivity Factor at 9.3% on a going forward basis and re-initialize interstate access prices from July 1, 1995 using the same factor. AT&T estimates that the amount of the July 1, 1998 access reduction for Price Cap companies resulting from the revised productivity factor and the re-initialization to be approximately \$3.6 billion.

In accordance with Section 1.1206(a)(1) of the Commission's rules, two (2) copies of this notice are being submitted to the Secretary of the FCC today.

Sincerely,

A handwritten signature in cursive script that reads "Brian W. Masterson".
